Approved By: Amandeep Kaur, Chief Executive Officer

- a. Punjabi Community Health Services' Executive and Leadership team assesses the accessibility needs of the persons served, personnel, and all stakeholders. These needs are identified using the accessibility status report. The accessibility status report addresses:
- Category of Barrier
 - Identified Barrier
 - Barrier Identification Methodology
 - Means to Remove Barrier
 - Responsibility
 - Due Date
 - Status Update
- b. Potential barriers are identified and categorized under the following:
- 1) Architecture
 - 2) Environment
 - 3) Attitudes
 - 4) Finances
 - 5) Employment
 - 6) Communication
 - 7) Technology
 - 8) Transportation
 - 9) Community integration, when appropriate.
 - 10) Any other barriers identified by persons served, personnel and stakeholders.
